

on the GREEN

A weekly publication for Gallaudet staff & faculty

June 30, 1980

Vol. 10, No.37

Lot attendant **Florentino A. Mata** mans the booth at the Sixth Street parking lot. The new lot is becoming filled with cars that used to park at the Auditorium lot, now closed to make way for the new Field House.

Where can you park now?

by **Floyd Holt**

Recently, I circulated a memorandum on campus explaining that the Auditorium parking lot would be supplanted by the Field House Construction Project. I also indicated that the Parking and Traffic Committee would be doing everything practical to accommodate those persons displaced by the elimination of this parking area.

The Parking and Traffic Committee met last Wednesday, June 18, and put together a plan which is expected to relieve the parking "crunch" by the beginning of the fall semester. This plan, which will be published in *On The Green* within the next few weeks, includes space and zone reallocations to accommodate functions which have moved to other parts of the campus since last year. It will also make allowance for intercampus deliveries conducted by privately owned

vehicles.

In the meantime, parking on campus is still controlled by the 1979 zone parking plan. All persons who are unable to find space within their assigned area must park in the overflow zone.

This overflow parking lot is located on Sixth Street, directly north of the Little Tavern sandwich shop and across the street from the old Plaza Chevrolet area (which is now being used by the Transportation Department). Across the street from this lot is a walkway which enters the campus near House 4.

The Sixth Street parking lot is controlled and protected by a parking attendant. It's open from 7 a.m. - 7 p.m., but if you plan to be in the parking lot later than 7 p.m., you can call the Department of Safety and Security to let you out.

Those desiring further information about motor vehicle and parking regulations may call Security at x5555.

WFD Bureau members spend week at Gallaudet

Members of the World Federation of the Deaf Bureau are off to Cincinnati this week for the 100th birthday celebration of the National Association of the Deaf, after spending an action-packed week at Gallaudet.

The College played host last week to a group of about 16 persons when members of the WFD Bureau (board of directors), along with some spouses and daughters, flew into Washington June 22 for a week as the guests of Gallaudet.

The officials left here Sunday, June 29 for Cincinnati, where they had earlier accepted a formal invitation from the NAD to be their guests at the NAD Centennial Convention June 29 - July 5. A host of others from Gallaudet are also attending the NAD convention this week.

While at Gallaudet, WFD Bureau members held their business meetings, toured the campus and met with a number of administrators to learn more about Gallaudet's programs and deafness in the United States.

The WFD members and their guests were the first large group to stay in the new Kendall School apartments. They included Dragoljub Vukotic of Yugoslavia, president of the WFD Bureau; Vittorio Ieralla of Italy, vice president emeritus; Vasil Panev of Bulgaria, vice president; Yerker Andersson of the USA, vice president; Vladimir Fufaev, of the USSR, vice president; Cesare Magarotto of Italy, secretary general; Canon Tom Sutcliffe of Great Britain; Teodoro Manzanedo of Argentina; Andre Saint-Antonin of

France; and Ms. Reynaud, president of the French Association of the Deaf.

A planning committee including Yerker Andersson, Mervin Garretson, Jack Gannon, Eli Savanick and Jerry Jordan, organized activities of the group during the week.

Last Monday, June 23, the group was welcomed by President Merrill and then introduced to Gallaudet's Undergraduate, Graduate and Pre-College Programs. They also toured the Look of Sound and had cocktails at the president's house, followed by a dinner on campus.

The group toured the White House and US Capitol on Tuesday, and in the afternoon they learned about Gallaudet's Public Service Programs and the International Center on Deafness.

A Bureau (board) meeting was held Wednesday, and the group then visited the NAD headquarters here, where they met with Al Pimentel. On Thursday, the group met with Boyce Williams and Edna Adler of the Rehabilitation Services Administration, Deafness and Communication Disorders Office; Malcolm Norwood, Media Services/Captioned Films, Bureau of Education for the Handicapped; and Carl Jensema of the National Captioning Institute. John Van Cleve and Al Berke discussed the forthcoming Encyclopedia on Deafness. After another Bureau meeting, the day ended with a Pre-College reception at Robert Davila's home, and a dinner on campus, where

continued on page 2

Members of the WFD Bureau toured the Capitol during their visit to Gallaudet last week. The tour of the Capitol and White House was arranged by Merv Garretson, Yerker Andersson and Sue Ellis.

Gallaudet's new teachers demonstrate their sign language skills at a sign language retreat held recently on the Eastern Shore. The new teachers are on campus now, participating in the New Teacher Orientation Program through July 31.

Transportation Department moves to new property

The College's Transportation Department is now located at the corner of 6th and Florida Avenue NE. This location was formerly known as Plaza Chevrolet.

Hours of operation remain:

Office: 7 a.m. - 7 p.m., Mon.-Fri.

8 a.m. - 12 noon, Sat.

Garage: 7 a.m. - 4:30 p.m., Mon.-Fri.

The Department may be contacted on x5188 and 5198 temporarily until the total telephone system is installed in the coming weeks.

Departments with unlicensed College vehicles requiring emergency repair should contact Dan Rabbit for service instructions. Licensed College vehicles requiring service may be driven to the service garage.

For service, use the 6th and Morse Street entrance: exit the campus via Florida Avenue gates; turn right onto Florida Avenue. Continue to 6th Street and turn right onto 6th Street. Continue one block to Morse Street; turn right into the entrance of the Service Area.

Letters

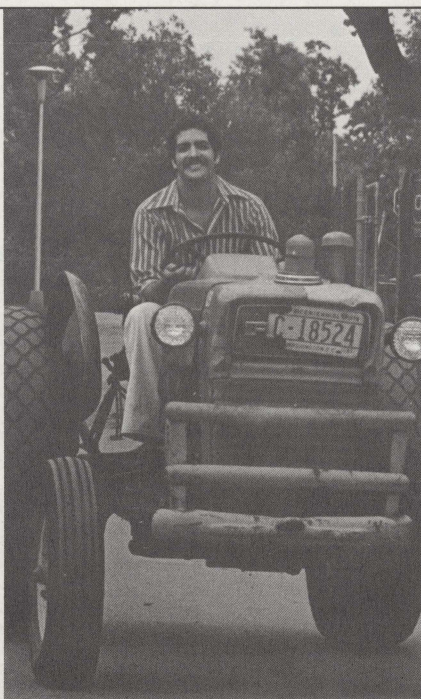

Editor, *On the Green*:

My office window overlooks the new Learning Center, so I take great interest in how it will look in the future. The article on the new metal sculpture on loan to the National Art Gallery intrigued me, so recently I drove down to the East Wing to see it. Having done so, I am uncharacteristically at loss for words to describe my sensations. However, I do have a suggestion. Let's make this a permanent loan to the National Gallery.

Sincerely,
Donald O. Peterson

Barbara Kannapell is a linguistics specialist with the Instructional Research and Development Center.

Michael King is a groundskeeper with Grounds.

Your number please

Gallaudet's general information telephone line, 651-5000, in the Visitor's Center, receives many calls each day and attempts to connect callers with the appropriate offices.

Because many offices and individuals have new telephone numbers, their job has become more difficult. You can help update the information line by dialing "O" on the campus telephones and giving new numbers, corrections or additions. It would also be helpful if you could check the campus directory to see if your name and number are included correctly.

Thanks for helping the information line help callers locate you.

WFD Bureau at Gallaudet

continued from page 1

members were entertained by students.

On Friday, June 27, Bureau members learned about the deaf adult in the US and American Sign Language from Yerker Andersson and Merv Garretson, and the National Center for Law and the Deaf from Sy Dubow. That evening, Merrill hosted a dinner at the Cosmos Club for WFD members, planning committee members and a small group of guests.

The visitors' week ended Saturday with a tour of area shopping centers and a reception at the Metropolitan Washington Association of the Deaf. Mary Anne Pugin, coordinator of Alumni Programs, took the wives of members on tours of shops around the city while their husbands were in Bureau meetings.

Members of the business community, including Em-Kay Liquors, Rock Creek Bottling Company, Mann's Potato Chip Company and Marriott Food Service, provided product samples for the WFD members in their Kendall apartments.

This week, the WFD Bureau also plans to conduct business meetings at the NAD Convention in Cincinnati. Following the Centennial week, the group will visit the National Technical Institute for the Deaf in Rochester, NY before departing for their home countries after their two weeks in the US.

In addition to the WFD Bureau, representatives of other national associations of the deaf in many foreign countries are expected to be at the NAD Convention this week.

NAD President Al Pimentel (left foreground) and Vice President for MSSD/KDES Robert Davila (center) talk with WFD Bureau members at a cocktail party held at House 1.

Sponsored R&D

Grant/contract deadline

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for faculty, staff and graduate students. The deadline is followed by an abbreviation of the federal agency and the program title. More details on programs of interest can be obtained from Glenn Pfau, director, Office of Sponsored Research, x5030 (Voice or TDD).

08/01/80	NSF—Science in Developing Countries
09/01/80	NSF—Unsolicited Research Proposals for the Development in Science Education Program
10/24/80	NSF—Unsolicited Proposals Related to Mathematical Science

Weekly program highlight

The Division of Innovative Programs and Demonstrations within the Rehabilitation Services Administration recently announced that July 18 is the deadline to apply for fiscal 1980 funds for cooperation agreements under the projects with industry program (for the handicapped). The purpose of the program is to establish jointly-financed projects which provide handicapped individuals with training, employment, supportive services and assistance within business, industry and other realistic work settings. The goal is to prepare such handicapped individuals for competitive employment and to permit them to secure and maintain employment. Eligibility includes individual employees and non-profit organizations. RSA expects that approximately \$5.5 million will be available in fiscal 1980. Application kits may be obtained by writing: Director, Division of Innovative Programs and Demonstrations, Rehabilitation Services Administration, Room 3518, Mary E. Switzer Building, 330 C Street SW, Washington, DC 20202.

Deadline	Program
07/15/80	NSF—Science for Citizen Forums, Conferences, Workshops, and Planning Studies
07/15/80	NSF—Unsolicited Research Proposals for Materials Research Laboratories
07/18/80	RSA—Handicapped Cooperation Agreements With Industry
07/22/80	PHDS—Dissertation Support Related to Aging
08/01/80	NSF—Specialized Engineering Research Equipment Grants
08/01/80	NSF—Measurement Methods and Data Resources
08/19/80	NSF-NIE—Development and Research in Mathematics Using Information Technology
08/22/80	NSF—Student Science Training Program
08/01/80	NSF—History and Philosophy of Science

Commencement held at MSSD

Gertrude Galloway, the new president of the National Association of the Deaf and assistant principal of the Maryland School for the Deaf, Columbia, was the featured speaker at the commencement exercises for the Model Secondary School for the Deaf on Friday, June 20.

Galloway is the first woman to serve as president of the NAD which, with some 15,000 members, is the largest organization of deaf persons in the country and the only national civic organization run solely by and for deaf individuals.

The commencement exercises for the 10th graduating class of MSSD were held at 1 p.m. in the Gallaudet College Auditorium. Fifty-five students received degrees from MSSD this year. Senior class president Constance Marshall of Erie, PA received an award instituted by Sen. Alan K. Simpson (R-WY) to recognize a student representing the true spirit of MSSD.

MSSD has a congressional mandate to serve students from DC, Delaware, Maryland, Pennsylvania, Virginia and West Virginia but it also accepts students from other areas of the country when there is space and no appropriate program is available.

Kendall Students have graduation

Twenty-six students graduating from the Kendall Demonstration Elementary School were honored at the KDES Recognition Day, 1980 ceremonies held last Wednesday, June 25 at the MSSD Auditorium.

Michael Deninger, acting dean of KDES, welcomed persons attending the event, and the address was given by Ernest E. Hairston of the Bureau of Education for the Handicapped.

Sandy Ewan, president of the KDES Home and School Organization, presented KHSO Awards to two of the middle school students, Kim O'Neal and Hung Yee.

Certificates were presented to the students by Deninger and Carl Kirchner, director of Instructional Programs.

Bicyclists and runners will have to find another place for their activities now that the track is closed for resurfacing.

Physical Plant has TDD's

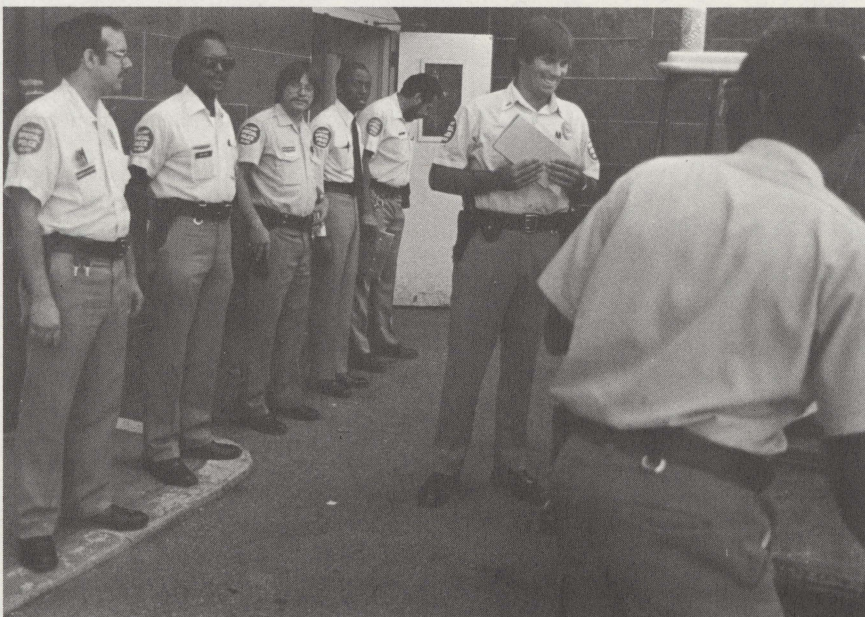

The following units in the Physical Plant and the Design and Construction Departments are now equipped with TDD's.

Director of Maintenance & Operations	
Howard Cihak	x5232 V/T
Administrative Services Supervisor, Physical Plant	
Gail Levo	x5232 V/T
Associate Director, Physical Plant	
John Gateau	x5211 V/T
Assistant Director of Maintenance & Utilities, Physical Plant	
Ernie Spriggs	x5229 V/T
Assistant Director of Buildings & Ground, Physical Plant	
Marty Willigan	x5231 V/T
Work Control Center, Physical Plant	
Michelle Burney	x5203 TDD Only
Director of Design & Construction	
Thomas Lillis	x5232 V/T
Assistant Director of Facilities Design, Design & Construction	
Jewel Verde	x5218 V/T
Assistant Director of Construction, Design & Construction	
Gregg Reynolds	x5218 V/T
Barrier Free Design Coordinator, Design & Construction	
Dick Hoke	x5199 TDD Only

All offices are equipped with one or more of the following Telecommunication Devices for the Deaf (TTD).

Porta-Tel
Porta-Printer
MCM
Modem 32 with Auto Ans
Teletym
C-Phone
Pocket Phone
Am-Com I (not yet received)
Model 28 (on loan)

Those who are interested in seeing any of the above TDD's in operation are welcome to stop by the Barrier Free Design Office for a demonstration.

Campus police officers get ready for duty outside the Security office in Chapel Hall.

Track closed

Attention all runners! Gallaudet's track has been closed for resurfacing. The track closed June 16 and will re-open on Aug. 17. There will be no admittance to the track until this date. Your patience in accepting the inevitable will be greatly appreciated.

Among Ourselves

Panjandrum Press in Los Angeles has recently published a book entitled, *Mimes on Miming*. The book, written by Bari Rolfe, contains a chapter on Bernard Bragg, Gallaudet's artist-in-residence this past year.

Vice President for Public Services Tom Mayes was asked to participate in the 110th Birthday Celebration for Helen Keller at the Washington Cathedral on June 29. He was scheduled to read a short passage during this time.

Barbara Kannapell, a linguistics specialist with the Instructional Development and Evaluation Center in the College Educational Resources has attended the forum on Ethnoperspectives in Bilingual Education Research at the Eastern Michigan University in Ypsilanti, MI June 12-14.

Richard Steffan, assistant to the director with the Division of Education at MSSD, has completed his doctorate at the University of Southern California. Steffan's study on *Parental Perceptions of their Influence on the Career Goals of Hearing Impaired Adolescents* should contribute much information to the field of education of the deaf and to the MSSD community.

Jo Anne Simon and John Raymer of Student Special Services attended the Association on Handicapped Student Service Programs in Post Secondary Education National Conference May 18-21 in Denver, CO. Simon participated in a panel presentation, "A Group Approach to Awareness Programs" and presented a paper, "In Service Training and Consideration for Hearing Impaired Students."

Cecilia Thorne, a Gallaudet graduate student employed to answer information telephone lines at the Visitors Center, received a certificate of gratitude and appreciation from the Washington Hearing and Speech Society honoring her "for services rendered to the children of the School for the Multihandicapped" in Washington, DC on June 24.

E. Allen Nowell, the assistant manager of the Department of Safety and Security, attended a meeting of the School and College Division of the Maryland Safety Council recently at Catonsville Community College. As a member of this group, Nowell serves as an advisor to the Maryland Safety Council. The Council is considering sponsoring a workshop on safety and the handicapped for early next year.

Published each Monday for staff and faculty of Gallaudet College by the Office of Alumni and Public Relations.

Gallaudet College is an equal opportunity employer-educational institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Health, Education and Welfare.

Money Talks

Unrestricted budget funds

by Paul K. Nance

The following are unrestricted sources of income, from other than direct appropriation, for Fiscal Years 1979 and 1980. These funds are included as a part of the regular budget.

In addition, for FY 1979 Gallaudet received income which was restricted as to use: \$1,812,060 in gifts and grants, and \$76,775 in endowment earnings, for a total of \$1,888,835. It is anticipated that Gallaudet will receive approximately \$2 million in restricted funds during FY 1980.

Source	Fiscal 1979	Fiscal 1980
1. Tuition fee	\$ 632,450	\$ 673,150
2. Unit fee	95,000	104,000
3. Registration and graduation fee	3,700	4,000
4. Dormitory fee	530,252	535,130
5. Board fee	956,468	956,548
6. Athletic fee	38,000	38,000
7. Drama fee	8,000	8,000
8. Sign Language course fee	40,000	40,000
9. Audiological assessments	7,000	7,000
10. Indirect cost recovery on grants	56,000	63,400
11. Demographic study services	35,000	35,000
12. Post Office income	2,000	2,000
13. Bookstore sales	468,130	837,772
14. Unrestricted gifts, endowment earnings, and other	48,000	88,000
15. Special summer programs fees	50,000	50,000
	\$2,970,000	\$3,442,000

How much energy do we use?

by Paul K. Nance

How does Gallaudet compare with other colleges and universities in the amount of energy it consumes? The following energy data is derived from a publication entitled, "Energy Cost and Consumption Audit Report 1976-79." It contains information about District of Columbia, Maryland and Virginia higher education institutions included in the report, with at least 75% of space air-conditioned, for the year 1978-79.

I. Dollar cost per million BTU used

1. \$3.64 (highest)
2. \$3.42
3. \$3.25
4. \$3.16 (Gallaudet)
5. \$3.10
6. \$3.09
7. \$2.93 (median)
8. \$2.90
9. \$2.75
10. \$2.74
11. \$2.61
12. \$2.59
13. \$2.58 (lowest, Tidewater Community College)

II. Million BTU consumed per gross square foot

1. 0.4216 (highest)
2. 0.3987
3. 0.3504
4. 0.3406
5. 0.3303
6. 0.3242
7. 0.3044 (median)
8. 0.2942
9. 0.2851 (Gallaudet)
10. 0.2761
11. 0.2656
12. 0.2182
13. 0.1735 (lowest, Catholic University)

The mean cost for the 13 institutions was \$2.98 per million BTU consumed; Gallaudet cost was \$3.16 or a price per million BTU of 6.04% higher than the mean of the 13 institutions. The mean million BTU consumption per gross square foot for the 13 institutions was 0.3064; Gallaudet consumption was 0.2851 or a consumption of energy of 6.95% less than the mean of the 13 institutions.

Patsy Lynch and Bill Young work at the MSSD Art Department.

Taking a stroll across campus are Vice President for Business Affairs **Paul Nance**, Director of Business Services **Kevin Berk** and **Al Price**, projects coordinator, Physical Plant Administration.

Anita Marchitelli is a Physical Education instructor.

Energy tips

by Jim Hull

Top Secret - a fact not well known is that using your air conditioner at driving speed does not necessarily reduce mileage. Modern cars are aerodynamically designed such that they produce better gas mileage with the windows rolled up. The mileage penalty for an air conditioner is roughly offset by the mileage improvement with the windows up. Remember this is *only* at cruising speed. A super economy-minded nut might save gas by driving with the air conditioner off and the windows up.

No Secret - a lighter car uses less fuel. Remove all but essential safety gear from your trunk (that outboard motor doesn't really belong there anyway). Excess baggage in the car costs you a 1% gasoline consumption for each 100 pounds, and 1½% in small cars.

You're Getting Good Mileage? The world record for gas mileage is 376.59 miles per gallon. Top speed was 12 miles per hour (when not coasting), the four regular tires were replaced with high pressure airplane tires, many parts were removed and many other items added (like insulation on the engine to hold heat in). You probably can't beat this record with the car you drive but maybe it will give you an incentive to improve upon your own gas mileage.
